The News. The New York City Banks resumed specie payments on Saturday, and the Boston and Albany banks follow suit to-day.

Some interesting news from the Utah expedition will be found under the telegraph head. The Kentucky Legislature has put over the election of U. S. Senator till another session. We give the proclamation of Secretary Stan ton, convening the Kausas Legislature in special session.

Gov. Walker was missing on Friday, the Government hunting for him by telegraph. Nobody enew his whereabouts.

MURDER AT NEWPORL .- The Sheriff of Column bia Co. offers a reward of \$200 for the arrest of an Irishman named MURRAY, for the murder of a man named Bowss at Newport, on the night of December 10th. Murray has been a laborer on the La Crosse R. R. iThe crime of murder is fearfully on the increase

in our State.

A Cotillion ahead - Who takes Partners. So says the Madison Argus, in joylul anticipa-

tion of difficulties and dissentions among the Re publicans of this State, touching the disposition of some half-dozen minor offices. Certainly, we shall not object to the Argus enjoying this 'crumb of comfort" in this hour of its pofitical affliction. But, speaking of "cotillions ahead." look at the grand National Ball Room at Washington! Even the Argus, blind as it is, of one eye, cannot fail to see what a prospect there is of a lively dunce at the capitol. Indeed, it is already looking out for a "partner," and is very evidently making up to Buchanan, in preference to its old favorit, Dougaas. When the music "strikes up," we look to see all sorts of "shuffling" among our democratic cotemporaries. "What's in the Wind ?"

The La Crosse National Democrat, of the 8th instant, contains a communication, sharply censuring the conduct of the School Land Commissioners and especially of Mr. Kuzuw, State Treasurer, and closing with these queries:

Is there any money in the State Treasury? or is it true, as stated time and again, by the Treasurer and his assistants, that the School fund has been over-drawn some \$40,000 or \$50,000? And if so, is there not reason to apprehend a greater deficiency in the Treasury than there ever was under Jausson?

The Democrat calls "special attention" to these charges and vouches for the author as the next Legislature. "well posted" and "responsible." Are we to have another democratic defalcation in the State Treasury?

Land Pre-emptions at Doniphan. A correspondent of the St. Louis Republican writing from Doniphan, K. T., says that Gen Whitfield and ex-Secretary Woodson have their hands full in adjusting the claims of pre-omp tors at the Land Office there. About a thousand cases have already been pre-empted, which com prise 160,000 acres of land, at a cost of \$260,000. 'You would hardly suppose it possible,"says the writer,"for a money punic to prevail, if you saw the heaps of gold that are every day poured from H. Ludington, the old buck-skin purses of the bardy pioneers Kellogg & Strong, of this heartful new country." of this beautiful new country."

Exonmous Swindling.—As staticd in a letter of the Superintendent of Public Printing, the cost of Governmental printing and engraving for the past year has been about \$2,000,000. This senormous, and shows the want of an honest investigating committee. It is a clear swindle of at least \$1,000,000.—Madison Patriot.

Very possible, Mr. Patriot, seeing that the incumbents are all "Democrats," and that, according to a statement openly made at the Democra. tic Congressional Caucus, "Wendell money carried Pennsylvania for Buchanan."

THE MINNESOTA CANVASS .- The St. Paul Minnesotian of the 6th says, in relation to the can- T. C. Cole, vass for state officers:

We have no news from the Star Chamber .-No flown's policy has prevailed, and the can-los Brown's policy has prevailed, and the can-vassers sat in secret session, excluding the peo-ple, the candidates and even their attorneys from overlooking their proceedings. It may turn out all right, but it does not look so!

The Democracy have no idea of showing the people of Minnesota the precise manner in which t he swindling canvass is managed.

HARPIES REBUKED .- Mr. JOHN LODGE, City Jas. Bonnell, Clerk of Portage City, has just died, after a pro- Dutcher, Sexton & Co tracted illness. The Democratic " Central Committee," in calling a Convention to examine a successor say:

The Committee have been correctly informed that there were no less than 7 applicants for the office of City Clerk, before Mr. Lodge was dead, and during the time he was suffering on a sick bed. The Committee therefore recommend that no person be nominated by the Democratic Convention aforesaid, who was an applicant for the office of City Clerk before Mr. Lodge was dead and buried in bis grave.

NEWSPAPER CHANGE.-Mr. Burr retires from the publishing department of the Portage City Badger State, and is succeeded by W. K. Mc

Mr. Belmont, the agent of the Rothschild, whose timely services to the Democratic party were recognized by Mr. Pierce in giving B. McVickar him the mission to Belgium, is said to have just bought a furnished house in the 5th Avenue, New York, for \$125,000.

Alieged Embezzlement of Savanty Five Thousand Dollars—Arrest and Ev-cape of a Defaulting Cashier. The New York Herald of Wednesday gives Attorney (and rent of office) . Treasurer, an account of the arrest and subsequent escape f Semuel F. Jones, late Cashler of the Coichester Bank of Coonecticut, on a charge of emberwing funds of the Bank to the amount of seventy-live thousand dollars. Some weeks ago Jones esigned his situation and removed to New York, where he established himself in the fancy dry geofs business.

Subsequently, the President and Directors of the Bank discovered a deficiency of \$75,000 in the funds of that institution, and an investigation showed that the accounts of the Cashier vere unsatisfactory. At their instance, Jones was arrested in New York, and was taken to the Metropolitan Hotel, where they requested him funds, March 86th, '57. THE CITY ACCOUNTS.—In noticing yesterday a resolution offered in the Common Council by Ald. Kuchn, calling upon the railroad companies for information concerning the bonds issued to them, the time and place when and where coupons are to be paid, &c., we added the following

office ? office?"
We learn from the Comptroller that the books in his office do not contain this information, and therefore the necessity of the call upon the several Railroad Companies. But he claims that the fault is not his, and that he has been compelled to do a vast amount of extra work to bring the books and accounts of his Department into anything like order. This is one of the subjects which should engage the attention of the Tax Payers' meeting, on Monday next.

MESSES. EDITORS:-The above article appear pelled to reply to it, inasmuch as it contains a reflection upon my official conduct as the late

Comptroller of the city. Any taxpayer that chose, could find in the Comptroller's office where they belonged, when I left it, and ought to be able to do so now, a correct list of all the Bonds issued for city purposes except Railroad Bonds. Lists of the Rail Road Bonds were kept in their proper place in the Oity Clerk's office, in accordance with a resolution of the Common Council, passed previous to my holding the office; and they were still there when I retired.

I left them were full and complete, and would doubtless bear a favorable comparison with those kept by the present incumbent in one of our city | Press. banks. Unless I am misinformed, all the necessary extra work that has been done in the Comptroller's office since last spring has been paid for by the city.

The Chairman of the Finance Committee could not have helped but have known where the lists of Rail Road Bonds were kept and could be found, and could have furnished a statement in 80 minutes if he had chosen to do so. In his position as late City Treasurer, and since then as Alderman, he must have known where the lists were kept and where was the place for them, and his not finding them and furnishing the informa. tion, is evidence only of wilful negligence, or gross stupidity on the part of somebody.

ocen made in cortain quarters in an underhand. ed and unusualy way to east censure upon my administration of the Comptroller's office I challenge any fair and honorable scrutiny to which it may be subjected so far as business a cursey or integrity of purpose are concerned and feel confident that neither the city or any of its citizens are sufferers from any mismanagement of mine, or that any thing wrong can be shown. Can some of my traducers say as much

adds:

The fault must have been either of your own The fault must have been either of your own amaking, or of that of your correspondent in Chicago, for we telegraphed on the same business on the same day, and we received an answer in ten minutes after we sent our despatch.

If there were no other parties in the matter except us and our correspondents, the fault would he between us; and, on the whole, we think the fault does lie between us, in the shape of the telegraph itself and its managers. The statement that the Wisconsin despatches find answers and ours not, confirms us in this belief. We shall know, shortly.

The lecture itself amply repaid those who were present. The readings, mostly from popular poets, not dramatists, were admirably done, the thorough actor displaying itself in the tones and action of the lecturer. His delivery of the "Seven Ages," and of the dying scene in Marmion, was very effective.

The Democracy and the Kansas

The firm support given to the bogus Lecomp ton Constitution by the Administration places some of the leaders of the democratic party in this State in a fix. They know, and many of them confess, that the action of the Convention was an outrage, and some of them are even willing to concede that the Convention itself was a miserable pack of ultra proslavery plotters, potent still.

Office, boldly defends the Washington Union in 2: defence of the Border Ruffians, and says : The course of the Union has, in our opinion, been dictated by an enlightened regard for the ciples, and it has been followed with listinguished ability and unwavering consisten-

It is regarded as morally certain that Kansas annot be admitted under the Topeka Constitu-tion, which was not legally formed; and several iramers of the act have been indicted for Treson, and as this fact is well known to the fractious, law-violating party, who style themselves "Free State Men," they demand that the Lecompton Constitution, (the only legal one framed, and the only one which Congress can entertain for one moment, and this is the only one which can be presented officially, and must be admitted,) should be presented to the people for ratification. They have no right to demand this, no legal right, nor have they any precedent, upon which, to demand this as a right.

not get the post offices in their localities, we don't see what post offices are good for, it being notorious that the Administration repudiates the idea of their being established and kept for the accommodation of people. On the other hand, we find a few democratic

Convention, insenue as it undertakes to force upon the people without a possibility of their ratification, a thing, called a Constitution in solemn mockery, concocted by the representa-tives of a small minority of the actual settlers in

Nothing can be clearer or more certain than that the Democratic party and its Representatives in Congress from the North, can never recognize a Constitution for Kansas, which has not been submitted to her people, no matter what provi sion or the probibition of Slavery,

Marsoal, said some time since :

the platform of the Democratic party, as laid down by the Cincinnati Convention, subscribed down by the Cincinnati Convention, subscribed to by Mr. Buchanan, and re-affirmed by him in his letter to the Connecticut clergymen, and in the instructions of the administration to Mr. Walker on assuming the office of Governor of

many receive gainiby the thrift that follows fawn-

It seems clear to us that one of the results of the present financial crisis and the consequent depression of all the producing interests in the depression of all the producing interests in the Eastern States and in Europe, must be an increased emigration to the West during the two coming seasons. If this be so it ought to be a coming seasons. If this be so it ought to be a in Missouri.

Mr. Weston is another well known Editor, formerly of Maine, and now having charge of the Washington Republic, the new and spirted Republican paper at Washington.
Captain Darling, of this State, was the efficient and courteous occupant, during the last Congress, of the post for which he is renominated. Messra Babcock and Morris are energetic Republicans, well known in their respective States. It is sufficient to say of them all, that they doubtless prize the nomination at the hands of the party of Freedom, more highly than they would an efection by the party of Slavery.

Mr. Sepanal's Resolution is pithy and comsoli imposed task upon the editors of Wisconsin papers to direct the attention of emigrants to the advantageous points within our own borders which in our humble opinion are not to be equaled by anything in Kansas or Nebraska or other lauded Western sections.

We have had our attention called to that particular property so well known in the legal records of the State, as " St. Croix Falls, " and, from convergation with gentlemen thoroughly conversant with its advantages, have acquired

the productiveness of its soil, in its wood and mineral resources, and unequalled in its climate and water, by any other portion of the State .-Both in cereals and roots the husbandman finds a vield for his labor astonishing to himself. Soventy bushels of corn, three to four hundred bushels of potatoes, thirty bushels of wheat, each to the acre, are considered fair crops for a fair portion of farmerlike labor and attention.

St. Croix, at the south end of the town, at the precise head of navigation. The St. Croix Manufacturing and Improvement Company, chartered by this State, own the two lower miles of these rapids, and have erected there an immense dam some five hundred feet in length, fifty feet wide t the base, and twenty-three feet high, from which a race leads to the mill now running six saws, a lath and shingle machine, capable of arning out a million and a half of lumber per nonth to the saw. The fall of water from the neight; of dam to the mill is about twenty-eight

the Company can make use of it for the whole two miles which they own, it is easy to predict tbut in the future this must be the seat of im mease manufactures. Over the castern end o the dam is being erected a building to contain planing, sash, blind, door, and such other ma chines for the manufacture of wood as can be made profitable and usoful. Over the whole o the dam is to be built a covered bridge which will be free. A flour mill capable of using four run of stone will be furnished early next summer

lect-and as the supply of water is unfailing and

-a large hotel has been completed-and the place begins to wear the appearance of energy and thrift, During the coming season the Company are to expend fifty thousand dollars for the benefit and improvement of the place, and a like sum is to be expended during the succeeding year,

The road through to Lake Superior is to be turnpiked if possible during the next summer, and the vast amount of travel which will flow through that channel must rapidly fill up the ntermediate country with settlers. It was remarked by the distinguished delegate

from Minnesota, that had St. Croix been properly pushed forward and kept out of litigation, it yould now have a population of thirty thousand, and St. Paul would be far behind it in material progress. We doubt, however, whether the litigation between General Cushing and others, which was settled by compromise last spring, has been without its benefits. The very fact of the litigation not only gave a wide reputation to the property and its resources, but as it covered the outlet to the river for a vast section of country, it deterred speculators from grasping at all the lands in the vicinity and holding them at speculative prices, while the occurrence of the financial crisis upon the termination of the litigotion has tended to keep prices still moderate. Excellent farming lands can be purchased within ten or twelve miles of the river, at prices varying from two and a half to fifteen dollars per

fer. The town itself will be the business capital

of Northwestern Wisconsin, and we should not

be at all surprised to see it, within seven or eight

years, one of the principal cities in the State.

This shows a falling off in land receipts, from those for the corresponding period of the preceding year, of \$5,322,145,99. With a falling off during the same period, in the location of lands with terrestrictions of the case of t with warrants, of more than 20 per cent. In the Territory of the United States there are eighty three organized land districts, each inving a register and receiver, for the sale and disposal of the public lauds. Yet we have no land district for either the Territory of New Mexico or Utah. In New Mexico the public land surveys have been executed to a very limited extent owing to fadian bostlides. In Usah the survey, had rapidly progressed until the Surveyor-Gene-ral abundoned his poet, owing to reported hostli tres of the Morman authorities at Salt Lake City

The extent of the surveys, since the beginning of the operations in Utah, exhibits a sphere of field work embracing 2,000,000 acres.

"A few days ago Capt. Hodgson (of ours) went out and captured the King and brought him in a prisoner. He is at present confined in his own palace. A few days later he went out again, and came up with the King's sons and grandson. He had only 100 native borsemen of his own regiment with bito, and the enemy about 10,000—3,000 of whom were fully armed Sepoys. Hodgson saw it was no use attacking them so he sent an emissary to tell the princes that the game was up with them, and that they had better sarreader, which they did after some time, and came up to Hodgson, who immediately surrounded the carriage with his men. He sent for their arms, and, after beitating some time, these were also given up, with seven elephants and lots of stores. On reaching the jult, Hodgson ordered the princes out of the venicle; they, imagining all was not right for themselves, began (native-like) to talk, and say the hoged there right be an inquiry into their conduct—Hodgson enid "Cheaproka" (be quiet), and ordered them to take of all their fine clothers—Whom this was done, he said, "Now get in again," and ordered the driver to proceed. He then beckoned to one of his men for a rarbine, and with his own hand shot each and all of the three princes. He then took their bodies into the city and laid them out for inspection in Trust of the Kotsaallie, where these wrotches had laid out their victims during the massacre.—

In every yard of those "Cotton Goods" imported from England and France, a foreign weaver's hand was streeched out to push an American weaver from an American home.

Between the warp and woof of every yard of it sold in New York was a sale of a day's work. Competitors of American working men are opened in Broad street, strong spinners and unseen, yet with i resistable power, take the employment that of right belongs to New York men and women, and olbow those wholly out of the labor morket.—Ted up in bales, nailed up in cases, the operatives of the immense Woolen manufactories in France, England and Beigium, are as effectually trunsferred to New York in the form of cloth products, as if they were landed there bodily rron a fleet. American abborers are as effectually cally invaded by foreign goods as they would be by the producers of those goods—and more so.

So with the Iron and Steel in the above list.—We import many working men in every ton of each Every cargo of railroad bars landed in New York from Liverpool, unloads and sets down lace for a few weeks at a time, a furnace and a call the disposed of according to direction.

by the producers of those goods—and more so. So with the Iron and Steel in the shove list.—We import many working men in every ton of each Every cargo of railroad bars landed in New York from Liverpool, unloads and sets down here for a few weeks at a time, a furnace and a milli—in which no Yankee can work—which occupy the place that another Yankee furnace and mill would otherwise occupy—and which gather up every Saturday night to be sent to England, the wages paid by our railroads, for rail making, and which they would be glad to pay to Americans if they had the choice.

Had these one hundred and forty-two millions of dollars been kept in this country and paid out as wages to our working men, at even the low rate of one dollar a day, they would have maintained in constant employment for a whole year, over 470,000 of them. That sum of money so unnecessarily sent out of our hand to foreign lands would, if spent here, have made idleness in the shops of America an impossible evil, and Want an unknown calamity in the house of the American mechanic.—Albany Journal.
